

# Custom transport solutions

Plant & Machinery Equipment

Our lowbed service is cost-effective and efficient with a systematic, planned policy of vehicle upgrades, selection enable ZimLowbeds to handle any load up to 150 tonne. We are the preferred choice for transporting abnormal equipment and vehicles to the Mining, Roads Construction, Civilis, Residential, Commercial and Industrial Infrastructure Deevlopment, and Agriculture sectors.

Our fleet of varying sizes of small-medium and heavy duty lowbed semi-trailers are designed to move various earthmoving, mining, construction and agricultural equipment across various project sites in Zimbabwe.
